Amherst, MA | 413-472-0003 | saisaranravi9@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Data Analyst with **2 years** of experience turning raw transactional and behavioral data into decisions - loyalty campaign targets, product retention signals, and financial screening frameworks.

Professional Experience

Chronochip (Early-Stage Startup)

Mar 2026 – Present

Data Analyst

- Defined core engagement KPIs for CosmiWork, a professional networking platform in beta, establishing event-level tracking for Daily Active Users (DAU), cohort-based retention (Day 1, Day 7, Day 30), and activation milestones to measure how early users progressed through the onboarding journey.
- Analyzed onboarding funnel performance using Mixpanel and PostgreSQL, identifying the interest-selection stage as the highest drop-off point across 20+ beta users and surfacing insights that informed product iteration decisions.

Cognizant

Programmer Analyst

Jul 2022 – Dec 2023

- Handled **10–15** weekly ad-hoc SQL requests for Macy's Customer Loyalty team, querying ETL-populated Oracle tables to validate transaction and redemption data that senior analysts relied on for loyalty campaign and retention decisions.
- Debugged SQL queries by reviewing join logic, filters, and aggregations to fix double-counting errors in redemption reports, cutting repeat investigation time by roughly **30%**.
- Identified partial ETL loads by comparing daily transaction counts against a **7-day** rolling average, catching data gaps on **3–4** occasions before they affected downstream reporting.
- Owned weekly KPI reporting across **5+** metrics including redemption rates and active vs inactive customer counts, giving the team accurate numbers to track loyalty program health and plan campaigns.

Student Intern

Jan 2022 – Jun 2022

- Built a Claims Management System capstone using Java, Spring Boot REST APIs, and an H2 database linked to a React frontend to simulate an end-to-end claims workflow.
- Tested API endpoints using Postman and presented the working system to subject matter experts, covering the end-to-end data flow from frontend to backend.

Volunteer Experience

Bright Mind Enrichment

Aug 2025 – Mar 2026

Data Analyst Volunteer

- Owned participation records for **300+** volunteers in Google Sheets and Excel, ensuring clean, accurate reporting for board directors and sponsors.
- Built dashboards tracking volunteer intake and program performance, identifying onboarding drop-off and recommending an orientation workflow to improve retention.

Projects

Feature Adoption and Retention Analysis | SQL (Snowflake), Mixpanel, Excel | GitHub

- Designed a hypothesis-driven tracking framework in Snowflake mapping 4 event signals (viewed, clicked, used, completed) to test whether feature engagement drives long-term retention across discovery, friction, and stickiness.
- Uncovered that only **28%** of users clicked a feature within 7 days while feature-engaged users retained at **2–3x** higher rates through Day 30, recommending early-session nudges to lift click-through from **28%** to **38%**.

Financial Data Analysis using SQL | MySQL, Power Query, Excel | GitHub

- Built a SQL-based financial screening engine with **25+** modular queries across **5** modules (profitability, growth, valuation, ownership, sector benchmarking) to help investors evaluate U.S. public companies on financial health and growth signals.
- Cleaned **200** company records to **170** by flagging incomplete fields without null-filling and built a composite scoring framework on P/B, PEG, and forward P/E, reducing manual benchmarking effort by **18–25%**.

Technical Skills

Programming and Querying: SQL (Window Functions, JOINS, CTEs), Python

Visualization and BI: Power BI (DAX, Power Query, Data Modeling), Tableau, Excel (Pivot Tables, Macros)

Databases and Tools: PostgreSQL, MySQL, Snowflake, Oracle, Mixpanel, Alteryx

Analytics and Business Skills: KPI Development, EDA, Statistical Analysis, Data Cleaning, Requirements Gathering

AI and Automation: Claude AI, ChatGPT, Prompt Engineering, LLM Assisted Analysis

Certifications

SQL Associate | DataCamp

Data Analyst Associate | DataCamp

Alteryx Designer Core | Alteryx

Excel Advanced User | Isenberg School of Management

Education

University of Massachusetts Amherst | M.S. Business Analytics | GPA: **3.7/4.0**

Feb 2024 – May 2025

Sathyabama Institute of Science and Technology | B.E. Computer Science | Chennai, India

Aug 2018 – Jul 2022
